- Database & Backend:** MySQL, XAMPP
- Tools:** VS Code, Git (basic)
- Soft Skills:** Problem Solving, Time Management, Communication, Teamwork
- Other Skills:** Basic Computer Operations, Documentation

College projects

- Smart Flood Monitoring & Alert System** – Flutter
SYNERGY 2025 – Best Research Paper
Developed a real-time flood alert app using Flutter, integrated with dual water level sensors. Delivered instant alerts, live water level data, and evacuation notices to support community safety and disaster response.
- Burger Ordering System** – PHP, MySQL, Tailwind CSS, JavaScript
Built a full-stack ordering platform with dashboards for both customers and admins.
 - Customers: Browse menu, add to cart, checkout.
 - Admins: Manage orders, products, users, and categories.
 - Designed responsive UI with Tailwind CSS and structured backend with PHP/MySQL.
- Attendance Monitoring System** – PHP, Bootstrap, JavaScript
Developed a web-based attendance system for logging time-in/out and generating reports.
 - Included admin dashboard for employee and schedule management.
 - Used Bootstrap for UI and PHP/MySQL for backend.
